Dave Moore, Superintendent

March 14, 2018

Greetings,

My name is Dave Moore, I am the Department of Public Works Director for the Town of Mooreville. I am reaching out to you to ask for your assistance. After careful study, research and deliberation we have determined an effective way to alleviate flooding issues throughout our town.

With the assistance of Banning Engineering our plan includes the dredging, cleaning and restoring of the creeks, tributaries, swells and drainage ditches that make up our towns stormwater utility system. At this time the Town of Mooreville is asking for your permission by way of an easement, to implement and maintain this plan on the portion of the stormwater system that is located on your property.

We will be respectful of your property and privacy. We will work quickly and safely and with your cooperation we should spend minimal time making these improvements along the creek channel.

Feel free to contact me at the above number to discuss this project or any concerns or questions you may have.

Thank you,

A handwritten signature in cursive script that reads "Dave Moore".
